Hi Geoff and Lisa,

Attached is the R5 proposal approving changes to the SIP for Indiana, and removing rules for MI and MN that were cited as problematic in our national SIP call. As an FYI - MI submittal is a committal letter stating that they will ask us to remove the rule after they have updated it to be limited to toxics for state purposes - the letter asking for official removal of the rule is currently in the states signature process, and we will not move forward with publishing our proposed rule until we have that letter. Please let me know if you have any other questions. Thanks!

Cheers

Carolyn
